912-685-2121

Area Covered:
State: Georgia
County: Candler

Pineland Telephone serves the entire county of Candler. As of Wednesday, February 27, 2001 anyone dialing "911" is routed to 912-685-8648 which is the dispatcher at the county sheriff's office. This was done by request of the Candler County Board of Commissioners and the City of Metter. While the county doesn't have E911, due to the unavailability of funds for such a project, the dispatcher will take the calls and notify the appropriate emergency facility.

Area Covered:
State: Georgia
County: Johnson

Pineland only serves a small portion of Johnson county. The largest portion of Johnson county is served by BellSouth. At the present time anyone that Pineland Telephone serves in Johnson county who dials "911" is routed onto a common trunk group to BellSouth. BellSouth does intercept the calls since Johnson county doesn't have 911. We are currently working with BellSouth who is working with Johnson county to try and determine where to have the 911 calls routed. BellSouth is cooperating and hopefully it will be resolved by the 9/11/02 report.

Respectfully yours,
